

HONSEL battery riveters.
The next generation.

small +
**power-
full**

Ready for
Industry 4.0

For
**Blind rivet
nuts**

RIVDOM® eBZ 1

up to
5.0 mm

Very compact design

+ low weight

+ a powerful, newly developed brushless motor

+ the optimised gearing

+ the familiar efficient 20 V -RivdomPLUS Li ion rechargeable battery are

the new key to optimum cordless blind riveting.

The new housing design is a further step towards perfect ergonomics

for comfortable handling even with the most intensive use.

 max. 3.5 mm

 1.6 kg (incl. battery 2.0 Ah)

 25 mm

 10,000 N

 < 30 min.

small + **powerful**
THE new standard tool
for blind rivets **up to 5 mm**

1,6 kg

Even more compact without collecting bin – reliable riveting even in confined installation situations

Wear-free.

Sturdy,
innovative BLDC
motor for maximum
service lives.

NEW Second half-
year 2021

**Tool-free
clamping mechanism**

Optional:
**Integration of
scanner systems**

**Powerful 20V
Li ion battery**

**Simple
control**

**Effective
cooling system**

**Mandrel collector
with larger
volume**

RIVDOM® eBZ ZERO

up to
4.0 mm

Optimised and specially designed for the world's most widely used blind rivet sizes up to 4.0 mm diameter.

In focus. **Maximum weight reduction** and **compact dimensions** thanks to the familiar RivSmart® housing.

The **outstanding ergonomics** and unrivalled light weight of only 1.3 kg guarantee the **highest level of comfort!**

1.3 kg

Extremely
lightweight
ultra compact

-  max. 3.4 mm
-  1.3 kg (incl. battery 2.0Ah)
-  20 mm
-  6,800 N
-  < 30 min.

Blind rivets

2,0	2,4	3,0	3,2	4,0	4,8	5,0
* Aluminium						
* Steel						
* Stainless Steel						
* Copper alloys						

* optional

Compact dimensions.

Thanks to the removable transparent collecting bin, the tool can be further shortened for **unrivalled ease of handling** for even the most confined installation points.

Clamping jaws and nosepieces can be replaced quickly and easily on the spot.

RIVDOM® ONE

up to
5.0 mm

RivdomONE continues to impress.

Indispensable for the work of many users today, the RivdomONE is equipped with many of the features of the **HONSEL eBZ family**, such as high-quality Li ion rechargeable batteries with RivdomPLUS charging technology, the flexible L-Boxx system and a **powerful motor**.

The outstanding ergonomics and an **extremely short trigger stroke** allow quick and comfortable working.

-  max. 3.4 mm
-  1.8 kg (incl. battery 2.0 Ah)
-  21 mm
-  10,000 N
-  < 30 min.

Blind rivets

2,4	3,0	3,2	4,0	4,8	5,0	6,0

The popular **basic model**
Inexpensive. Reliable. Proven.

ALL IN ONE. THE VARIO NOSEPIECE

For quick and easy changing between the diameters 2.4 mm, 3.0/3.2 mm, 4.0 mm and 4.8/5.0 mm – **completely without tools** (special accessory)!

RIVDOM® eBZ 2

up to
6.4 mm

The **setting force of 20,000 N** and the very large **stroke of 30 mm** enables not only standard blind rivets but also **high-strength versions** such as **HONSEL FERO® Bulb** and **FERO® Bolt** (or comparable products) and folding blind rivets **up to 6.4 mm diameter** to be quickly and reliably set in one step.

Uncompromisingly powerful.

-  max. 4.8 mm
-  2.0 kg
(incl. battery 2.0 Ah)
-  30 mm
-  20,000 N
-  < 30 min.

Blind rivets

3,2	4,0	4,8	5,0	6,0	6,4	8,0

* optional

The POWER pack

Wear parts can be changed practically without the use of tools.

The outstandingly balanced **housing** and a **trigger with a stroke of only 2 mm** guarantee a very high level of comfort during the day-to-day work.

RIVDOM® eBZ 3

up to
7.8 mm

The HONSEL Rivdom eBZ 3 battery riveter was developed specially for the demands of the setting of high-strength blind rivets with 6.4 and 7.8 mm diameter with grooved rivet mandrel!

The clamping jaws specially designed for this geometry and a modified clamping mechanism **guarantee reliable and positive settings** of FERO® BULB high-strength blind rivets (or comparable products) with a mandrel diameter from 3.8 to 6.15 mm. This also helps to minimise wear on the clamping jaws.

-  max. 6.1 mm
-  2.1 kg
(incl. battery 2.0 Ah)
-  30 mm
-  24,000 N
-  < 30 min.

Blindniete

3,2	4,0	4,8	5,0	6,0	6,4	8,0

24,000 N! MAXIMUMPOWER with cordless riveting

High-strength FERO® BULB blind rivets with 7.8 mm diameter in use, for example, in truck production.

The **HONSEL RIVDOM eBZ 3** is supplied as standard with retention nosepieces.

RIVSMART® eBZ ZERO S

Rivdom is smart. RivSmart.

Very small, very light and in touch with the world.

With RivSmart you can now take the first step towards blind rivet processing of tomorrow – on the basis of decades of experience in the development of high-quality riveting tools and customised riveting automation technology. RivSmart can be **easily integrated into our production processes**, and with its **documentation capabilities** helps to **optimise and monitor production**.

-  max. 3.4 mm
-  1.3 kg (incl. battery 2.0Ah)
-  20 mm
-  6,800 N
-  < 30 min.

Blind rivets

2,0	2,4	3,0	3,2	4,0	4,8	5,0
* Aluminium						
* Steel						
* Stainless Steel						
* Copper alloys						

* optional

**NEXT LEVEL
RIVETING**

1.3 kg

**Small. Light. Smart.
Industry 4.0 ready**

Compact dimensions.

Thanks to the removable transparent collecting bin, the tool can be further shortened for **unrivalled ease of handling** for even the most confined installation points. In combination with the very low **weight of only 1.3 kg**, it is unrivalled when it comes to comfortable working!

Colour coding of the union nuts for identification of the application, workplace or employee, and a plate for marking the rivet application that can be attached like a belt clip are available as accessories.

RivSmart can do more. Intelligent controller

In addition to its outstanding riveting properties, the RivSmart eBZ ZERO S is prepared for integration into an increasingly networked production environment

- Mobile control via Android or IOS app
- Service functions: Information on clamping jaw change, service intervals, emptying of mandrel collector, job counter, live statistics
- Many basic functions: Countdown, various counters, statistics, signal tones

**App-controlled
WiFi-connected**

- OLED display (1.5") with 5 buttons
- Management of several devices
- Wifi connectivity with radio frequencies 2.4 and 5 GHz
- Individual interface programming possible

* DMSD 2G

Included in the scope of supply:

SD card as **internal memory** for reading out the documented data of the process stamp, even without permanent WiFi connection.

Rivsmart DMSD2G

Detailed information on the possibilities offered by **automation technology** and **process monitoring** can be found in the relevant separate documents or on our website, www.honsel.de.

Rivsmart PLConnect

Link your RivSmart to your production environment and thus combine the possibilities of your PLC with the intelligence and connectivity of RivSmart. Based on industry standards, the system is highly flexible and modular.

M3 - M12

RIVDOM® eVNG 2

Rivdom eVNG 2 gets to grips. Uncompromising.

The new **HONSEL** battery riveter now offers the ultimate solution for cordless settings of blind rivet nuts and bolts.

Oriented to the demands of industrial series production, Rivdom eVNG 2 offers a wide range of use features and options.

Innovative. Sturdy and reliable.

- 2.4 kg
- 20 mm
- Screwing on / off variable
- < 30 min.

Modern, flexible and unrestricted processing of **Blind rivet nuts** up to **M12!**

NEW Second quarter of 2021

Rivdom
Made by **HONSEL**.

1.5" OLED control display with 5 buttons well known from the RivSmart battery riveter

SD card scanner

Various counters, Service and blocking functions

Additional status LED

Rivdom eVNG 2 can store settings for **up to 99 different blind rivet nuts** and call these up within seconds.

Extra slim front sleeve - only 25mm

Programmable unscrewing speed

Automatic setting of the nosepiece.

Threaded mandrel with new quick-release mechanism.

Emergency Mode

Quick-start function thanks to multi-function trigger.

All-hand soft grip - ideal for all hand sizes.

Force or stroke control!
Depending on the fastener to be set and the application, the **Rivdom eVNG 2** can be operated with either force or stroke control via the menu of the control display.

For blind rivet nuts and studs with left and right-hand thread!

Rivdom eVNG 2 has a **patented gearbox** with two independently operated BLDC motors. This allows the system to be variably switched on and off during the return stroke.

RivdomPLUS 20V Li ion rechargeable battery with state-of-charge indicator.

Belt clip or application plate

Optional integrierter Scanner (2021)

Schlanke Gehäuseform - nur 71 mm breit !

Komfortsteuerung

FamilyFacts

Configuration details for ALL.

The latest motor technology

Brushless and wear-free.

L-BOXX®

Sturdy and flexible.

The innovative system packaging solution. The new **HONSEL** L-Boxx is also compatible with the L-Boxxes from other manufacturers.

State-of-charge indicator on every battery.

4.0 Ah battery available as an accessory!

Quick-charger

Future-oriented battery management

The powerful **HONSEL** Li ion batteries are fully charged in **less than 30 minutes** – the **90 % charge is reached after only approx. 20 minutes** – so that the charging cycle is always shorter than the battery-consuming working time!

High-quality electronic quick-charger with **automatic identification of the battery used**. 12 V, 16 V and 20 V batteries from the Rivdom family can be charged using the same charger.

ERGONOMY and COMFORT

Quick-release mechanism No more than one open-jaw wrench for maintenance!

Outstanding ergonomics: Rubberised universal handle for all hand sizes. Perfect housing geometry.

Maximum comfort thanks to rotation trigger with very low trigger force/short trigger stroke.

Safety

Belt clip
(alternatively rivet application plate)

LED-illuminated
riveting point

Integrated
mandrel holder

Robust mandrel collector
Various sizes available as options.

Plastic box for
nosepieces

Hanger bracket
for balancer

Extended warranty.

We are convinced of the quality of our **HONSEL** battery riveters. That is why we grant a **24-month manufacturer's warranty** on all current models. Just register on www.honsel.de.

Quick and easy. Retainer nosepieces

available as options for all Rivdom and RivSmart battery riveters ensure that the rivet is securely held in the tool in any position before setting and that the mandrel is discharged **without tilting** after setting!

Individual return mode setting - In addition to the manual return mode, the Rivdom tools* offer an **automatic return mode**. Here the trigger merely has to be pressed slightly to start the automatic setting process. The tool automatically moves back to the starting position to keep the **riveting cycle as short as possible**.
